TerraNova believes that progress requires more than just cutting carbon emissions and reducing waste. True change happens when we reimagine our relationships with nature and technology. TerraNova is dedicated to showcasing new ideas that bring us closer to an Earth where humans and nature can thrive together.

Error Element `head` is missing a required instance of child element `title`.

From line 2, column 17; to line 4, column 6

`lang="en">↵↵<body>↵     <hea`

Content model for element `head`:

If the document is an `iframe srcdoc document` or if title information is available from a higher-level protocol: Zero or more elements of metadata content, of which no more than one is a `title` element and no more than one is a `base` element.

Otherwise: One or more elements of metadata content, of which exactly one is a `title` element and no more than one is a `base` element.

Error Element `li` not allowed as child of element `nav` in this context. (Suppressing further errors from this subtree.)

From line 10, column 4; to line 10, column 7

`<nav>↵                    <li>Home</`

Contexts in which element `li` may be used:
Inside `ol` elements.
Inside `ul` elements.
Inside `menu` elements.
Content model for element `nav`:
Flow content.

Error Element `li` not allowed as child of element `nav` in this context. (Suppressing further errors from this subtree.)

From line 11, column 4; to line 11, column 7

`e</li>↵                    <li>About<`

Contexts in which element `li` may be used:
Inside `ol` elements.
Inside `ul` elements.
Inside `menu` elements.
Content model for element `nav`:
Flow content.

Error Element `li` not allowed as child of element `nav` in this context. (Suppressing further errors from this subtree.)

From line 12, column 4; to line 12, column 7

`t</li>↵                    <li>Waste<`

Contexts in which element `li` may be used:
Inside `ol` elements.
Inside `ul` elements.
Inside `menu` elements.
Content model for element `nav`:
Flow content.

Validation results are saying that I cannot use the list element as a child of the navigation element, but I'm just using it as a placeholder.

Recyling & Waste

Second Hand

Thrift shopping significantly reduces the carbon emissions and footprint associated with manufacturing and shopping. When you choose second-hand items, you're not only saving resources but also minimizing the greenhouse gas emissions linked to the production and transportation of new products.

What Can't Be Recycled?

We've all probably put something in the recycling bin that cannot be recycled. While you may think you're doing a good thing, you could potentially be hurting the recyling process. This article goes into detail on things that can and cannot be recycled.

How to Recycle Glass

The following article gives step by step instructions and locations on where to recycle glass products in the state of South Carolina.

How to Recycle Batteries

The following articles gives step by step instructions and locations on how to recycle batteries in the state of South Carolina. It shows several different types of batteries and their respective of recycling.
